## GAME CONTINUATION

### Live session

State + controllers + history

### State file

One rules position
Chance RNG, where used
Choose controllers on load

### Replay file

Moves + branches
Controller checkpoints
Review / fork / continue

Game saves may contain hidden information.

## LEARNING

### Training run

Model + optimizer + progress

### Portable model

Inference weights + spec
For compatible agents
Load locally or in browser

### Training checkpoint

Model + optimizer
Training RNG + progress
Resume optimization

Models evaluate; checkpoints resume training.

Exact continuation needs saved progress, not just the original seed. File compatibility is validated on load.
